Career Objective:

As a junior web developer, I focus on creating visually appealing and user-friendly websites using HTML, CSS, and JavaScript. With back-end development experience in PHP and GitHub, along with skills in digital marketing through Google Merchant, Google Tags, and Google Analytics, I enhance online presence. I also design product posters and manage content on Google and YouTube. My background in IT support and content creation enables me to deliver high-quality web and mobile applications that meet user and business needs.

Work Experience:

Dr S. Surajballi (ophthalmologist)
October 2022 – Current (ADHOC BASIS)

🔴 *Assist Reception (Part Time)*
Filing, answering of phones, making appointments for patient & general office duties

Woolworths Group
